UNIVERSITY COLLEGE OF MERIT «VILLA NAZARETH» CALL FOR SCHOLARSHIPS 2020/2021

The University College of Merit «Villa Nazareth» is based in Rome in via Domenico Tardini n. 33-35 and it is managed by the non-profit organization **Fondazione Comunità Domenico Tardini ONLUS**, whose president is Archbishop Claudio Celli (www.villanazareth.org).

This Foundation builds its educational program on the Christian value of life, on the respect for the freedom of the individual and on the value of culture at the service of other people, and it aims to help young students develop their talents for their professional, spiritual and personal development.

The University College is a member of the «Conferenza dei Collegi Universitari di Merito» (CCUM — www.collegiuniversitari.it), the association that brings together and represents the University Colleges recognized by the Italian Ministry of Education, University and Research, and of the European University College Association (EUCA). «Villa Nazareth» **accommodates without tuition** several university students, both Italian and foreign, with an excellent curriculum, whose families are unable to help them financially in their university education. Successful candidates are required:

- To **commit** to a thorough personal educational path, while **carrying out their university courses**;
- To **actively participate** to the **educational activities** of the Foundation and to the **social and solidarity activities** organized by the Foundation or by other Institutions;
- To **actively participate** to all **services** of communal life with joint responsibility.

In addition, the College has an agreement with INPS – Social Security (former INPDAP, former IPOST and former ENAM) concerning the annual INPS – Social Security call for university colleges, aimed at students coming from families with one of the parents working in public administration.

For the 2020/2021 academic year the Foundation – who reserves the unquestionable right to change the number of the positions and scholarships available – issues the following

CALL FOR

- ***9 students to be admitted to the male dorm (5 of which are reserved to the INPS – Social Security call for university colleges)***
- ***5 students to be admitted to the female dorm (2 of which are reserved to the INPS – Social Security call for university colleges)***

for Italian and foreign students about to enroll to State or non-State universities based in Rome, legally recognized by the Italian Ministry of Education, University and Research.

ONLY RESERVATION: this year the Foundation reserves one of the overall available scholarships (either in the male or female dorm) for students that will enroll or that are already enrolled to nursing school in one of the Universities in Rome, thanks to the scholarship offered by the Order of Nursing Professions of Rome (OPI Roma).

1. RECIPIENTS

This call is for Italian and foreign students who obtained or are about to obtain their high school diploma within 2020, with an excellent curriculum and whose families are unable to help them financially in their university education.

Still considering the priority given to high school graduates, the Foundation reserves the unquestionable right to accept students about to begin their second or following university year; in any case, students about to begin their last year of university courses (MA degree) will not be admitted.

2. FINANCIAL ELIGIBILITY CRITERIA

2.1. STUDENTS RESIDING IN ITALY

The financial eligibility criteria for students residing in Italy are both the following:

- ISEEU Form (Equivalent Financial Situation Index for University) not exceeding € 23.000,00
- ISPE Form (Equivalent Assets Situation Index) not exceeding € 50.000,00.

If one or both parents generate their income abroad or work for foreign institutions or if their incomes are not applicable for determining the ISEE or ISPE forms, management reserves the right to determine the financial situation by using other economic indicators.

The College reserves the unquestionable right to accept students coming from families whose ISEE and ISPE indicators are above the indicated threshold, if they still are in unfavorable financial conditions. Close attention will be paid to those families particularly damaged by the consequences of Covid-19.

2.2. STUDENTS RESIDING ABROAD

The documentation relating to the economic and financial condition of the students residing abroad must be issued by the competent authorities of the country where the income was produced. This documentation must be translated into Italian by the competent Italian diplomatic authorities for the area. For those countries where there are proven difficulties in issuing certification by the local Italian Embassy, this documentation is provided by the competent foreign diplomatic or consular offices in Italy based on what is indicated in Annex A of this call. Those unable to present the documentation relating to the income of 2019 have the faculty to declare the income relating to 2018. For foreign students from one of the particularly poor countries listed in Annex B, the assessment of the income requirement is made on the documentation issued by the Italian Representation in the country of origin, which attests that the student does not belong to a family known to be of high income and of high social level.
